

QUALITY POLICY

GPT whose mission is to support Grifols business development in China by providing various consulting service, as well as trading service to the Grifols group, has established a Quality Policy with the aim of delivering the highest levels of quality, security and efficacy.

The processes are designed and performed in accordance with the following guidelines:

- To identify and satisfy the requirements and expectations demanded by its customers and other interested parties
- To provide the resources needed for the maintenance and continual improvement of the Quality Management System in place.
- To establish targets consistent with our activity for the continual improvement of the provided services and to conduct regular reviews of the quality system.
- To create a participatory communication and training system to involve, motivate and commit the entire staff of the GPT Division/area with this quality policy, processes and defined procedures.
- To harmonize the QMS with the quality systems of Grifols group.
- To perform a proper management of suppliers and distributors, ensuring the implementation of measures that guarantee their compliance with the established requirements.
- To carry out all consulting and trading activities in compliance with applicable laws, rules and regulations of the People's Republic of China where GPT operates. Perform these operations using the principles of the Code of Conduct, anti-corruption policy and established internal processes, always ensuring compliance with the Grifols ethical commitment.
