Barcelona, Spain, February 9, 2022 – Grifols (MCE: GRF, MCE: GRF.P NASDAQ: GRFS), one of the world’s leading producers of plasma-derived medicines and provider of technologies and services for hospitals, clinics and compounding centers, today announced that its PharmacyKeeper Verification software has been named No. 1 Category Leader in IV Workflow Management in the 2022 Best in KLAS: Software and Services report for the sixth consecutive year.

Annually reporting the “Best in KLAS,” KLAS Research focuses on user-based feedback to rank healthcare technology and services vendors. This methodology continuously promotes vendor accountability to the highest standards of excellence and recognizes companies that enable healthcare professionals to provide better patient care year after year.

“Receiving Best in KLAS for the sixth year in a row is an exceptional accomplishment for Grifols PharmacyKeeper Verification, reflecting our ability to build continuously on our close partnership with customers to improve the quality of patient care,” said Rob Jagt, President, Grifols Hospital Commercial Division.

“Each year, thousands of healthcare professionals across the globe take the time to share their voice with KLAS. The Best in KLAS report and the awards it contains set the standard of excellence for software and services firms,” said Adam Gale, CEO, KLAS Research. “Vendors who win the title of Best in KLAS should celebrate and remember that providers now accept only the best from their products and services. The Best in KLAS award serves as a signal to provider and payer organizations that they should expect excellence from the winning vendors.”

PharmacyKeeper Verification is part of the Grifols inclusiv IV compounding portfolio of integrated devices, software and service solutions designed to help build a technology-enabled world without medication errors. To learn more, visit: www.grifosinclusiv.com.
